New Year ~ New Home

2014 ushers in a new era for Environmental Protection, Inc. Since 1980 EPI has served the geosynthetic industry from its original facility in Mancelona, MI. Beginning in January, EPI will be operating from a newly renovated and significantly larger building located in Traverse City, MI.

Our expanded facility gives EPI new capabilities for fabrication and provides many new possibilities for growth, product improvement and development.

center of our geosynthetic fabrication process.

1567 W South Airport Road

By making our QC lab central to every employee's daily tasks, EPI continues our commitment to producing the highest quality products and providing the very best customer service.

Please update your records for our new mailing address. All of our phone numbers and email addresses remain the same. And additionally, our website is also undergoing a major upgrade and renovation. Watch for more announcements on this in the coming months.

For more information give us a call toll free at **1-800-OK-LINER**.

Pictured above is the EPI renovation crew who have been working diligently to update and prepare our new home.

QUALITY IS EVERYBODY...
