EPI Technical Service Representative (TSR)

EPI can provide a Technical Service Representative during installation of your geomembrane liner. Installation is to be performed per EPI Geomembrane Installation and QC Manual(s).

Daily rate of ____ per day, plus travel expenses (airline and rental car) or mileage, plus daily meal and lodging expenses. This rate applies portal to portal.

Scope of Work :

Technical Service Representative will perform the following:

- Instruct the Customers foreman how to:
 1. Inspect the sub-grade per EPI recommended specifications
 2. Locate and deploy PVC panels
 3. Chemically weld field seams

4. Install pipe boots
5. Perform field seam testing
6. Inspect installation for conformance with EPI and manufacturer recommended specifications

Technical Service Representative does not:

- Supervise or direct customers' installation crew.
- Provide or arrange for equipment or laborers.
- Approve sub-grade or cover material.
- Make field seams, make repairs, or install boots.
- Perform seam testing.
- Provide any warranty of the installation.

An EPI TSR can be a money saving solution to your PVC liner installation needs. Contact EPI at 800-655-4637.
